

ONE STINK BUG COULD RUIN IT FOR ALL OF US

The Brown Marmorated Stink Bug would damage a piece of fruit, but the damage to our horticulture industries would be much bigger. An incursion could ruin fruit, wine and vegetable production and have a major impact on everyone involved in the industry. Keep an eye out, and if you see one, don't kill it. Catch it, take a photo, and call 0800 80 99 66.
